A wrong physical bound created false learning headroom
Query frequency 11.3
Query frequency 17
Mean complex relative L2 on same grid-257 teacher
10^{-1}
10^{-2}
10^{-3}
10^{-4}
Invalid old q >= 1 clipping
Corrected q in [0.5, 6.25]
65×65
129×129
257×257
Full low-band complex-field grid per frequency
Same 8 used 2D multiscale pilot systems, same source/PDE/data. Old Gaussian-only q >= 1 bound clips ~40% valid pixels.
